Oil & Gas  
Authority

## Unlocking our potential – innovation and collaboration to maximise recovery

15-16 Nov 2016  
AECC

The 23rd SPE ICoTA Well Intervention Conference is the largest and longest established conference of its kind in Europe. This year, we will address 'more for less' and how we can truly unlock our potential through innovation and collaboration, to maximise recovery.

If you're engaged in well intervention, you can't afford to miss the valuable learning, training and networking opportunities.

### Why is our conference different?

- It's gained valuable support from the Operators
- It's a cost effective training opportunity and CPD points are applicable
- It's a not-for-profit conference where all surplus funds are reinvested to support our future generation of young engineers
- It's a focused conference and you will gain genuine benefits from attending

[www.icota-europe.com](http://www.icota-europe.com)

**"It was very useful to see the scale of work which was going on with other companies, their challenges, and solutions."**

**"The openness from some companies from their presentations was highly encouraging, and very useful. Great to hear what their problems were, and the approaches to resolving them."**

**Comments from North Sea Operators who attended the conference.**

## Abstracts open 6th March and will close on 1 August.

Companies are invited to provide abstracts of no more than 200 words for presentations lasting 25 minutes. Visit [www.icota-europe.com](http://www.icota-europe.com) for further information.

## Exhibit

The conference will be accompanied by a major exhibition of all the latest intervention tools, technologies and services available to the market.

Raise your profile and showcase your capabilities to major Operators and service companies.

Stand space is available on a first come first served basis and will be located in the catering area to ensure high footfall.

Recognising the challenging climate, we have held costs at the same rate since 2015, all exclusive of VAT.

3m x 2m stand with 1 delegate.....	£1,250
6m x 2m stand with 2 delegates.....	£2,250
9m x 2m stand with 3 delegates.....	£3,410
12m x 2m stand with 4 delegates.....	£4,450

## New!

We are offering companies the opportunity to showcase their equipment in a “show-and-tell” – for more information, contact [icota@mearns-gill.com](mailto:icota@mearns-gill.com)

## Partnership

Official SPE ICoTA Conference Partners help to fund the Conference, providing training opportunities for our young engineers of the future.

You will receive excellent brand exposure and many benefits including:

- Free ICoTA membership for your young engineers
- Excellent training opportunity for your staff
- Branding across all promotional materials relating to the Conference
- Brand exposure via SPE Aberdeen and ICoTA marketing channels
- Discount on delegate places and exhibition space

Packages start from as little as £500 plus VAT. Show your support and make a difference.

## Book your place now!

Don't miss the valuable training opportunities presented at the SPE ICoTA 22nd European Well Intervention Conference.

Attending the conference is excellent value for money and it qualifies towards your CPD.

Contact [icota@mearns-gill.com](mailto:icota@mearns-gill.com) for more information.

## Early Bird Booking Discount

If you book before 28th October, you will qualify for £350 plus VAT saving £50 plus VAT

## Group Bookings

For all group bookings of four places, you will get a fifth place FREE.

## New for 2017 - Pre-Conference Workshop on Well Control and Intervention - 14th November

This workshop will be more focused and tackle specific issues, challenges, and talk about solutions, relating to well control and intervention.

SPE ICoTA 23rd Well Intervention Conference - The largest and longest established specialised conference of its kind in Europe
